La Web3

Web 1.0

National Aeronautics and Space Administration

The NASA Homepage

- [Welcome](#) - This is a good place to begin your journey. Start by reading a letter from NASA Administrator, Dan Goldin, or NASA's Strategic Plan. Check out the User Tips page to find the helper applications you will need to get the most out of what we have to offer.
- [Today@NASA](#) - If you've read about NASA recently or seen something on TV, this is place to go for links to more details about breaking news. You can find the most recent Hubble Space Telescope Images, links to the Shuttle Web and the latest news releases. [This site is extremely busy, please be patient.]
- [NASA Organization](#) - A list of the offices at NASA Headquarters with links to their Web sites. Below this list, you'll find an extensive subject index of NASA Web sites.
- [Questions and Answers](#) - Have you ever wondered where you can order NASA photographs? Or how to become an astronaut? Or how to see a launch? This is the place to go to find the most commonly sought information about the U.S. space program.
- [NASA Centers](#) - Most of NASA's work is done at the agency's field centers. Here you'll find links to their Home Pages.
- [Go To](#) - Links back to the NASA Organization, the NASA Centers, other nations' space agencies and other U.S. federal agencies.
- [Gallery](#) - Video, audio clips and still images are here for the downloading.
- [Aeronautics](#) - An overview of NASA's aeronautics research and links to related Webs.
- [Space Science](#) - What lies beyond our home world? Here's information on NASA's planetary exploration, astronomy and research into the origins of life.
- [Mission to Planet Earth](#) - Dedicated to understanding the many ways the Earth is constantly changing and how human beings influence those changes.
- [Human Space Flight](#) - This Web provides links to the Office of Space Flight, including the Space Shuttle and Space Station Home Pages, and the Office of Life and Microgravity Sciences, which conducts research aboard the Shuttle and is planning experiments for the Space Station.
- [Education](#) - If you're a student looking for information for a school paper or a teacher seeking material to add to your curriculum, this is the place to start.

You can send us [comments or questions](#) about our Web site.

Web 2.0

The image is a screenshot of a Facebook profile page from the early 2000s. The layout is divided into a left sidebar and a main content area. The top navigation bar includes links for Profile, Friends, Networks, and Inbox, along with Home, Account, Privacy, and Logout. The left sidebar contains a search bar, navigation links for Photos, Notes, Groups, Events, and Posted Items, a 'Change Log' section, and a 'WEAR IT.' advertisement featuring a black tank top. The main content area displays the user's profile picture, name 'Amy', and a status update: 'is excited about the new redesign'. Below this is a list of personal information including Networks (Facebook), Sex (Female), Interested In (Men), Relationship Status (Single), Looking For (Friendship), Birthday (October), and Hometown. A section for recent activity shows three events: 'Amy and Andy are now friends', 'Amy edited Work Info', and 'Amy joined the Facebook network'. Below this is the 'Mutual Friends' section, showing three friends in common: Jed, Mark, and Naomi. The 'Information' section at the bottom lists 'Favorite Music' including artists like Madonna, Ani DiFranco, and Weezer.

Web3

Descentralitzada, més democràtica, basada en el **blockchain**.

**Què és el
blockchain?**

- Sistema descentralitzat vs. arxius guardats en un únic servidor.
- El propi sistema s'encarrega de verificar la integritat de l'arxiu i validar els seus canvis (no es pot hackejar).
- És un sistema que aporta transparència, seguretat, integritat i traçabilitat de les transaccions/canvis.

És una cadena de blocs entrellaçats.
Les cadenes es guarden a milions
d'ordinadors per tot el món.

Tres parts: informació, *hash*
(identificador únic, rastrejador de
moviments), *hash* bloc previ a la
cadena.

Com funciona el blockchain?

La web 2.0 va prometre als creadors guanyar diners amb les seves creacions, però...

La Web3 retorna el paper central a l'usuari, sense intermediaris.

Metavers com a terreny de "joc".
